SG Floorball Open; “The Singapore experience, a unique lifestyle”

Background

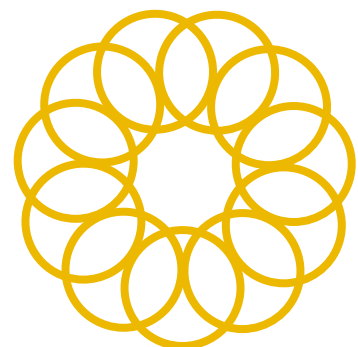

24 years ago we started floorball in Singapore. Today, we have established the sport all over Southeast Asia. Together with our network of corporate contacts, politicians and enthusiasts on all levels, floorball is now one of Singapore and Southeast Asia's most thriving youth and development sports.

Now we would like to further more strengthen the cooperations between different regions and cultures and invite you and your company to be part of the existing path ahead.

Our international network leads the way to a medal sport in SEA games

Already 2005 we organised the first floorball world championship ever outside Europe in Singapore Indoor Stadium. We have established floorball in Malaysia, Myanmar, Thailand and Indonesia.

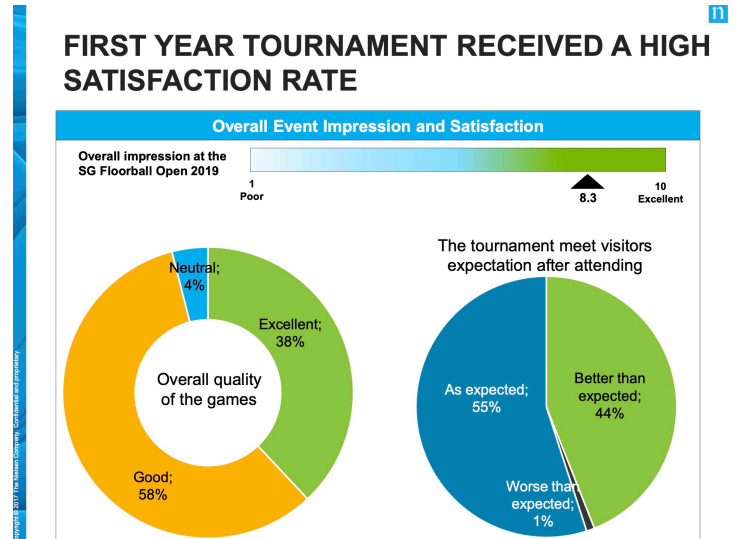

The **greatest milestone** was 2015 when floorball became an official medal sport in **Southeast Asia Games (SEA Games.)**
